

Pavilion Schools' Display

Best Display \$200

Entry is Free, but please register your intent to take part at the Show Office.

Generously Sponsored by: Dan Carey

This Year's Theme:

"Hanging / Vertical Gardens"

Any interpretation can be taken on this topic and may include a practical display of a vertical garden, if it can be safely displayed. A vertical garden could be as simple as a hanging basket or the use of a pallet for growing plants in the home / school situation.

Research could include: What is a vertical or hanging garden?

The Hanging Gardens of Babylon - What proof is there to say they existed?

Modern day vertical gardens - Where are they in the world?

Benefits of vertical gardens - Environmental, social, economic?

Technology required to support vertical gardening in an urban landscape - e.g. engineering, hydroponics, pollution, sunlight etc.

Each school can choose to interpret this theme as they wish.

The colour theme for 2026 is PURPLE / MAUVE, so you may like to incorporate this.

Displays can be set up any time from 10 am Monday 2nd March to Thursday 5th March.

A key to the pavilion will be needed, so please contact the Show Office (located in the Old Courthouse Building, next to the Police Station) on 0427 070 341, between 10 am and 5 pm.
